

Although it has been a long time since we have seen everyone in Giraffe Class, we were really glad to see all of them return at the beginning of the school year, however, we are still having to adapt as the term goes on. The children have done really well at adapting to these new changes and settled back into their familiar routines very quickly. This term we are looking at transport and the way that we move. All of us have different ways of being transported, some of us come on school buses and others come in cars. We have been exploring how different things move in science but exploring how different parts of our bodies move during physibods! Another favourite activity of ours is switch toys and we have been using our own switches to activate all different types of lights, songs and even our bubble machine.

We have been lucky enough to celebrate Black History Week and Harvest Festival. There was great fun for all whilst practising for our Harvest Festival performance and we were able to share our video with the rest of the school. During Black History Week we took the chance to listen to music from different parts of the world, do some cooking and create some wonderful art.
