

In Meerkats this Autumn Term we are focusing our learning on popular Books and Stories. We have very much enjoyed practising our early counting skills whilst reading the Fairy Tales Goldilocks and the Three Bears and The Three Little Pigs. We had lots of fun building our own make believe houses from straw, twigs and bricks and made a brilliant display of our work for all to see. We love to play in our role play corner and enjoyed pretending to be characters from the stories we have been reading – we especially liked taking turns to be The Big, Bad, Wolf and trying to “blow the house down”.

We have been doing lots of learning outdoors and are making the most of the beautiful season of Autumn by using our outdoor spaces to explore and discover nature and how the seasons look different from one another. We have collected lots of different natural objects and have made some creative and interesting artwork from them. We are excited to play in our newly refurbished and updated playground and now have a water wall, a story bench and a hall of mirrors to play with when outdoors, as well as our interactive sensory boards and our new elevated garden where we are growing herbs and flowers.

We are looking forward to learning about animals that hibernate or journey to warmer climates for the wintertime as we move into the Autumn 2 half term and we will soon be preparing for our seasonal celebrations as we move towards Christmas time, when we will be taking part in a performance of the Christmas Story.
