

As we look forwards to Spring 1, we are busy gathering items to prepare ourselves. In the Spring Term, we are going to be exploring textures and patterns in many of our lessons. For example, in art we will be exploring how different textures make up our work and how we can use them creatively. In Tac Pac we will be continuing our musical exploration of different textures of different items and how they feel. Using our communication skills, Giraffe class will be working on communicating our preferences and responses in relation to different patterns and textures. We will also be using our senses in cooking to explore the wide range of different food textures and tastes. Here are a few symbols that we will be using.
