

This term we will be learning about different types of animals and where they live.

For the first half term we will be focusing our learning on pets and woodland creatures. We will be sharing pictures and stories about our pets at home and thinking about how we care for our pets and what things they like to eat. Our home corner will become an Animal Hospital where we can take our make believe pets and rescue creatures to be nursed back to good health. Our topic books are Dear Zoo and Owl Babies and as we move towards the end of the half term, we will be learning about animals that live in the woods and fields and how many of them only come out at nighttime, like owls.

We will be continuing our outdoor learning in Forest School and preparing our garden area for planting our Springtime flowers. We are all excellent gardeners in Meerkats!
