

Our theme this term is Fashion and Design and we will be sharing and exploring the characters in our story texts, the 'Emperor's new clothes' and 'Anansi and the Spider'. We will be creating tactile books, using our modelling mats and developing our fine motor skills through making objects with clay and salt dough. We will be celebrating festivals like the Chinese New Year and the Lantern festival, and we will be discovering the different foods and flavours associated with these festivals in our design and technology lessons.
