

This term our topic is 'Fashion and textiles' and we have a lot of activities planned. We will be exploring many patterns and textures outdoors in our local environment. We are hoping to complete various art projects including making our own tie dye T-Shirts. In Science we are planning to explore natural dyes using various fruits and vegetables.

We will also be exploring fashion and patterns from around the world.

We will be doing all of this while continuing with our ASDAN portfolios and playing invasion games in PE. We will hopefully be able to link up with our friends who are currently learning at home through Tim's Zoom music session and our own 'Zoom Bingo! Game'.
