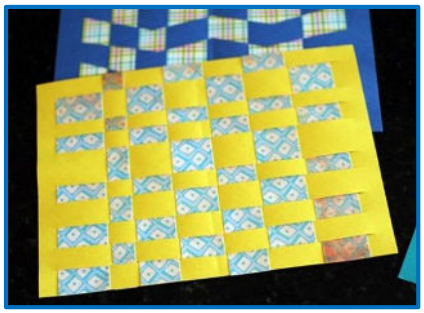
RUBIES CLASS SPRING 1 2021

Over the course of the Spring Term we will be focusing on 'Fashion and Textiles.' As part of our learning we will embed a cross-curricula approach to develop a range of skills and explore new resources.

We look forward to making our own weaving patterns and mixing colour to create our own designs.



'Fashion through the decades' is key focus during our history lessons. Each week we will be looking at the fashion, music and features typically associated with each decade. Some of the activities this half-term will include making jewellery, tie dye t-shirts and neon fabrics to celebrate key moments of each era.

During our Modern Foreign Languages, we will be focusing on Spanish speaking countries. This term we will be looking at Mexico. Associated weather, music, clothing and buildings will be some of our main focus areas this half-term.

We will continue to interact with others using social distancing through Zoom. Tim and Carmen is a favourite of ours and we always enjoy seeing our friends both within school and at home.

We look forward to sharing all of our work with you through newsletters and Evidence for Learning.

Kind Regards,

Rubies' pupils and staff
