

Meerkats will continue learning about animals in Spring 2, but this time they will be exploring farm and jungle animals. During the first weeks, we will start learning about farm animals with the stories "The Pig in the Pond" and "Farmer Duck", where we will explore animals and their colours and noises they make. We will enjoy water play activities just like "The Pig in the Pond" story, and we will talk about emotions (things that make us happy and how to be kind to others and help our friends). Later on in the term, we will work on the stories "Walking in the Jungle" and "Rumble in the Jungle", learning about the different patterns we can see going on a Safari through the jungle and discover what noises hide behind the trees. Through the Spring 2 term, we will continue with the sounds of the week ("p" for "pig" and "pink", "d" for "duck", "h" for "hen" and "horse", "t" for "tiger", and "l" for "lion". As we enter a warmer season, we will spend more time outdoors, observing the changes in the weather and the nature around us. Looking forward to seeing our Meerkats having fun at school as well as at home throughout our online sessions.
