

Our Topic: **Fashion and Design.**

This term, in Diamond Class, we will be learning about fashion and design. Formal students have been reading “The Emperor’s New Clothes” and they will learn about how to add description using adjectives, Semi-Formal will work on matching clothes to pictures, and Pre-Formal will learn about textures through a sensory story “The Smartest Giant in Town”.

In Maths, formal students will be developing their money skills, identifying coins and notes so they understand how much money in pounds they need to pay for an item as well as working out the change during role play. Semi-Formal students will be working on 2D shapes and colours.

We will be working on the science experiment – “sink or float” where different materials will be tested about their properties.

This term, Diamond Class pupils will also learn Spanish words related to clothes and colours. For those doing home school learning, we will work through online sessions on Google Classroom and by completing the learning packs sent home.
