**RUBIES CLASS** **SUMMER 1 2021**

Our new topic focus this term is '21st century.' Over the course of the term we will be looking at a range of features from this period. This will include: special people, events and changes so far within the 21st century.

Modern Foreign Languages has been a favourite subject for us over the course of the year. We will be focusing on Spanish speaking countries with our topic covering 'Cuba.' During forth-coming lessons we will be looking at traditions, people, places and food. Each week we will be introduced to a 'fact' associated with Cuba. Towards the end of the half-term we will have a quiz to recall all of the facts learnt and celebrate with a party.

As secondary pupils, developing our independence is a key feature in our day-to-day activities. As part of our ASDAN work we will be helping with suitable jobs around the classroom and wider school. Recycling will be one of our topics this half term, which we will link into sorting materials.

As part of our core subject focus we will be looking at 'full' and 'empty', with extension activities linked to half full and half empty. This will allow us to develop cross-curricula learning by incorporating Food Technology and Maths. In addition, we will be working on these skills when planting seeds and flowers within the school.

We will continue to use the outside space as the weather continues to get warmer; by using the Forest School area to make a variety of projects using natural materials.

We look forward to the half-term ahead and will make sure to take lots of photos to send home!
