

We are getting closer to the end of the academic year, but before that we will enjoy a Summer 2 term in Meerkats learning about “The Seaside” and all the fun things you can do on the beach. We will pretend to go for a trip to the seaside and explore the sand on our feet while we build sandcastles, the wind in our face and the waves from the sea splashing. We will explore the stories “Wave” by Suzy Lee to talk about trying new things and how that makes us feel, and “The Sea Saw” by Tom Percival to talk about our favourite toy, where children will be encouraged to bring theirs to school for “show and tell”. We will continue looking at different ways we can keep our oceans clean. Also, we will learn about the Summer weather and we will look at what we need to take in “our suitcase” if we were going on holiday to the seaside. In the meantime, before we break for the Summer holidays, we will enjoy some water and sand play in our playground and we will plan some local trips to celebrate the end of the year.

We are looking forward to having fun in Meerkats!
