RUBIES CLASS SUMMER 2 2021

Rubies class are looking forward to an exciting and busy final part of the academic year. During the course of the half term, we will be working on a range of hands-on activities within the curriculum.

As the weather continues to become warmer, we will make the most of this opportunity by visiting our surrounding areas on a regular basis. As part of our ASDAN work, we will focus on our local environment and what we can do to keep it clean. In addition, we will be running a 'clean-up' project, where we will visit Fairfield Park and use suitable equipment when working together to help keep our local area clean. We also look forward to using the outdoor space to develop a range of 'athletic-based skills' when engaging with new sports games.

We will continue our learning around Spanish-speaking countries as part of our MFL focus. As the term progresses we look forward to visiting an additional two countries, where we will look at the typical features associated with our country. This will lead nicely to 'International Fair Week', where we will vote on our favourite country so far this year and share our learning with other classes- we look forward to producing a craft-based piece of work, representing our country of focus.

During the remaining part of the year we will continue to develop our understanding of animals and their habitats. We have thoroughly enjoyed looking at the Rainforest over the previous half term and look forward to developing our skills further; alongside with expanding our vocabulary, relating to features of the rainforest and similarities and differences between animals' appearances.

We look forward to having an adapted end of year celebrations within our class-bubbles showing recognition of all of the fantastic effort and hard work from the amazing Rubies' pupils. Throughout the course of the half term we look forward to sending home photos of all of our hard work and favourite activities. In addition to regular photos and videos within your child's profile on Evidence for Learning. We wish you all a restful and enjoyable half term.

Kind regards

Clair Wilcock and Rubies' class team
