

This Summer Term Zebra class will be learning about “The World Around Me”. We will be learning about what there is around us: the place where we live and the things we all have around, with their differences and similarities (people, plants, animals, landscape, city, etc.) We will use Makaton signing, symbols and pictures to help us to describe different features, and we will also continue developing our communication skills through touch and music, and we will also continue developing our communication skills through touch and music, and use our five senses to help our sensory and physical systems.

We will be carrying out an International Fair Week in which we will explore different cultures from Spanish speaking countries. It will be very exciting!

Communication through touch and music.

Relaxing time

Try to find a relaxing and comfortable space and avoid any disruption.

Play the song and set it up to full screen.

During each song you will use a different object for a sensory experience!

Enjoy!
