

Sapphires are looking at Celebrations Around the World this half term. We are going to be using our skills learnt in MFL to look at celebrations in Spain and use our geography skills to see how other festivals and celebrations take place around the globe.

In Literacy we are going to be looking at non-fiction texts and begin writing our own about a chosen festival or celebration. We are then going to use our skills of computing to find an appropriate picture from the Internet to add to our text.

In Maths we are going to be looking at fractions in everyday life. We are going to be exploring different types of fractions, recognising fractions and making some fractions using different methods.
