# Sapphire Class - Autumn one 2021 /2022

Our Topics:

We are going to read :

## Welcome Back!

Sapphire Staff and students are ready for a new academic year!

This term, we will work on remembering and consolidating the learning from last Summer 2! In Maths, we are going to experience and manipulate analogue and digital clocks to learn about time. Students will be rounding numbers to the nearest 10 – 100 and working with number lines. In English, we will be reading books, as well as improving our writing by using capital letters and full stops appropriately. Students will also respond to questions “Where? Who? What?”

In Science, we will carry on learning about animals – their features, habitats and groups. Sapphire students soon will start to access community again, going to Kingston so they develop their independent living skills, for example, going to shops to buy materials for our DT and Outdoor learning, so we can make a bird feeder. In PE, Sapphire pupils will be exploring different types of sports equipment as well as taking part in Boccia inter-class competitions. Friendships / Relationships and Emotional Health are our topics. These two topics will be the base for all the work that we will develop in MFL (how to greet and talk to a friend in Spanish), SEMH – friendships and the importance of good manners, Art – self-portrait and facial expressions, Humanities – celebrating autumn festivals and finally, computing, where we will discuss about how to stay safe online.
