

In Spring One, Elephants will be exploring the topic of 'Markets and Money'. We will be visiting local markets and using our senses to explore all a market brings; hearing the hustle and bustle, smelling the range of foods and exploring the variety of produce on sale. In DT we will be creating our own wallets to bring to the market and keep our precious coins safe. In Maths we will be looking into exchanges and amounts. We will have a role play market set up in the classroom to promote communication, practise of exchanges and counting of amounts. Elephants will also be experiencing a range of 'forces' in Science, asking simple questions on what outdoor play activities require a push or pull.
