

HIPPO CLASS

SPRING 1 2022

Our topic for the Spring Term is “Markets and Money”.

In Communication we will continue working on extending and developing our shared attention and using our preferred means of communication to make requests and communicate our needs and wants with increasing independence.

We will be running communication groups, some will be taking part in attention bucket sessions. Some of our will work look at scenario pictures and share what is happening, how the people in the picture might be feeling. The focus will be on extending sentences and listening to others and then responding.

We will continue our phonics sessions this term. All the students will read to an adult and have the chance to listen to a range of different stories throughout the week.

In Maths we are working on our understanding of money. Some of us will be building on our understanding on 1: 1 correspondence and will match coins.

Another group will be working on identifying coins and some of us will be able to find different combinations of coins that equal the same amounts of money.

In Science, our topic will be forces, we will explore toys/ objects that need to be pushed/ pulled for something to happen. We will also explore magnets

In Humanities we will recognise features of markets, through role play and visits to markets.

In SMEH our focus will be on asking for help when they need it and to be able to share how they are feeling, using their preferred means of communication.
