

Through the course of the first half of the Spring Term Giraffe Class showed huge progress in their learning and engagement, in line with the engagement scales that all children in Giraffes access. We were busy exploring money and different notes in various different subjects. In the second half of the Spring Term we will be exploring making items that could be bought with money, including making things out of clay. We are all very excited and we will be continuing to use these symbols as we go through into Spring 2.
