RUBIES CLASS SUMMER 1 2022

We are looking forward to our new topic cycle: 'Exploration and Adventure.' Over the course of the Summer Term we will be looking at a range of non-fiction and poetry where we will enjoy exploring our texts during both daily English lessons and also when visiting the Sensory Library.

As the Summer Term progresses, we look forward to our Science topic 'plants.' This will allow us to develop our understanding of the different types of plants and flowers; alongside with progressing our own outdoor area, when sowing and planting a range of seeds. We look forward to visiting various shops when handling money; supporting us to develop our understanding of 'change', when purchasing seeds and equipment needed for our planting topic.

Rubies' Class have focused well on all ASDAN modules across the year. We look forward to continuing with our 'Health' module, where we will be making healthy recipes and looking at how we can keep our bodies fit and healthy. In addition, we will be focusing on 'My Challenge', which will encourage us to take on a new area of learning related to 'health' and develop associated skills. This will naturally link with our Design Technology and Food Technology subject areas, where we will be recapping on food groups and making a range of healthy eating recipes. As the weather continues to become warmer, we are hoping to extend our learning in the local community. The use of Fairfield Park will allow us to join in with group games in an outside environment and enjoy exercising in the community.
