

Meerkat Class is getting ready for the Summer holidays, but before this happens, next Term they will be sharing their own experiences on holidays they have been on in the past. We will be talking about where they have been and how they got there (by aeroplane, train or maybe boat). We will continue learning about the weather as Summer approaches and we will look at what we need to keep us safe from the sun. This will be very useful to know in preparation to our trip to Hobbledown, where we hope to see lots of animals and maybe some other Meerkats! As we get closer to the end of the academic year, Meerkat Class will be preparing their "Learning Journey" Performance and we will celebrate Graduation for those that are leaving Early Years to move into Primary. This would be another opportunity to invite parents to celebrate with us all the learning that has been happening during this amazing year in Meerkats.
