RUBIES CLASS **SUMMER 2 2022**

Rubies Class is looking forward to continuing many of our topic areas; alongside with new learning opportunities, after the half term holidays.

During this time, we will continue with our Science focus: 'Plants and Flowers', where we will be further developing our horticultural skills and planting new items within our outdoor space. We will also use this as an opportunity to incorporate new areas of learning linked to Forest School and Citizenship, by focusing on different insets and their 'microhabitats.'

As the Summer Term progresses, Rubies Class will continue with our 'Adventure' topic, where we will be learning about pirates. As a class we will vote on our new shared texts, which will later centre around many of our English lessons. This will allow us to begin to answer comprehension questions and also build sentences using Colourful Semantics.
