

In the second half of the Summer Term, Elephant Class will continue learning through the topic of 'The Great Outdoors'. The class will be attending a number of events and going on day trips over the term. One of the trips coming up will be visiting the animals at Chessington World of Adventures. Another, will be to going on an adventure at Thames Valley Adventure Park. Elephant Class are also looking forward to the whole school events of the Fun day, Dance and Music Workshops and Sports Day. Elephants will be continuing local trips, going to Kingston Museum to find out about past history of the local area and exploring the local wildlife and plants surrounding our area.

In Science, Elephants will continue their learning about plants at school and continue caring for the plants in the classroom and in the playground. In English, our key text explored will be 'Dear Greenpeace by Simon James', a collection of letters from a young child to Greenpeace about a whale that lives in her pond. In Maths, we will continue working on number bonds to 10 and using Numicon pieces to support. As it is the last school half term, we will be celebrating the past year and all the achievements gained.
