

Emeralds are starting a new topic this term called 'Animals and Life Cycles'. In Literacy we are focusing on the sensory story called 'The Farm' and exploring different animals through all of our senses. In Maths we are exploring the concept of 'one' and 'lots' so will be looking at groups of animals, coins, counters and anything else that can help us with our Numeracy skills. We are looking at our local area in History and DT and focusing on the bridges in Kingston and what makes them special. We are planning to explore our local area and key places such as a visit to Kingston Museum in small groups.
