

It is a very exciting half term coming up for Eagles class! We will begin planning our Duke of Edinburgh expedition, which will take place hopefully during the Summer Term at a time yet to be decided. Our Year 14 Leavers will also be having their trip to the Isle of Wight in mid-May, where they will experience a steam railway, a butterfly house, and Queen Victoria's Summer Palace. Back in school, we will start our Work Skills module on Office Skills, something that our class has already practiced very well, and a Life Skills module about identifying and accessing different Health Services. Excitingly, we have PE sessions with Emily to look forward to, and we have already seen our students develop their skills at boccia, hockey, and croquet. Finally, and sadly, we will be saying goodbye to Nicola mid-way through the term. She will be leaving us to begin training as an occupational therapist, so we wish her all the luck in the world, and thank her for all her hard work!
