

In Summer 2, we will continue learning about the topic “Great Me: Growing Up” and we will be focusing on how children have changed since they were born, looking at some pictures and trying to guess how old they are on each picture. We will also look at how much they have changed since they started at school and what they have learnt. We will share this with parents in our EYFS end of year performance. The last weeks of the term we will start our transition period where we will meet our new classes for next year. There will be lots of outdoor play and water play to enjoy in the sunshine!
